Failure to Pass Cuban Bill at Extra Session Anything But Pleasing to Him.

THE SPEAKER IS ANGRY ALSO

Extra Session Will Adjourn Wednesday, Having Accomplished Nothing.

(Special to The Times-Disputch.)

WASHINGTON, D. C., Nov. 21 .- The Democratic Senators have agreed to allow the Cuban reciprocity bill to come to a vote December 18th, and to vote for adjournment on next Wednesday until the regular session, the first Monday in December. The administration and the leaders of the Republicans in the House are bitterly opposed to any adjournment until the Cuban bill is disposed of.

pour ment into the coose is as a posed of.

Speaker Cannon and Representatives Payne and Daizell were in conference this afternoon, and the subject of adjournment was chiefly discussed.

The Speaker is said to be angry at the proposition, and there is a gentleman at the White House at the other and of the Avenue who is in anything but a good humor at the prospect of an insurrection and the complete disregard of his wishes. of his wishes.

MADE A MISTAKE.

MADE A MISTAKE.

John Sharp Willinms, the Dimogratic leader of the House, expects adjournment early next week, and has gone to New York to remain a week or more. He took his secretary with him, and while in the metropolis will make out the committee assignments for the Democrats. He found it impossible to do the work

Ho was nover seen unless being pursued by some member of the minority who wanted to consult with him on some subject, and he found it necessary to leave town in order to get the opportunity to make up the list which Speaker Cannon had requested.

I have not yet met a Democrat who does not think Mr. Williams made a mistake in accepting the responsibility of selecting the minority membership of the committees. It is the duty of the Speaker to do this work. It may be regarded as a gracious act on the part of Speaker Cannon to allow the minority leader to name the men from his side for the various committee places, and then, again, there is another way of looking at it. There are going to be many heartburnings when the membership of the committees is announced early in the regular session, and the hard feelings will not be toward Uncle Jee. It is their own leader whom the Democrats will cuse out. Mr. Cannon is one of the shrewdest men who ever wielded the gavel in the House of Representatives.

TO CORRECT EVIL.

Representative Hardwick, of Georgia, contemplates introducing a bill which he believes will do much if enacted to correct evils in the appointment of Federal officials in Southern States, especially postmasters. His bill proposes to make it a criminal offense for any man to sell an endorsement for office. It is the practice of even white men in the Southern States is seek the endorsement of norstopoliticians when they apply for an office under a Republican administration, for it is the negro who controls Southern delegations to the antional convention which nominated the Republican candidate for the presidency.

The negro to whom the application for endorsement is made almost invariably sells his O. K. to the man who will pay most for it. The result is that the appointee is generally a man endorsed by the negro and one who is appointed with sole reference to his ability to pay the darkey for his approval.

Mr. Hurdwick has conferred with President Roosevelt on the subject, and the President was much interes

dona a great deal to appropriate the winder a good chance of securing help. Senator Mitchell, of Oregon, has introduced a bill providing for the appropriation of two millions in aid of the exposition to be held at Portland in 1605, in commemoration of the one hundredth anniversary of the arrival of the Lewis and Clark expedition on the Pacific coast, and it may be that the Virginia delegative and the delegation from Oregon can unite and in this way help each other. It would appear as though the South and the West would have to stand together if they are to set the approtogether if they are to get the appro-priations for their expositions.

Representative Lamb will return to

Maynard and Mr. Slemp will do the same, Mesers, Jones, Rixev and Swan-son recide here. Mr. Southall will go home during the recess, and so will Mr.

## Favorable Report.

WASHINGTON, Nov. 21.—The Senate
Committee on Foreign Relations to-day
authorized a favorable report on the bill
giving effect to the Cuban reciprocity

The notion to favorably report the bill The notion to favorably report the bill was not opposed by any member of the committee and the decision to favorably report was arrived at in less than afteen minutes after the question was taken up. No effert was made to amend the bill, and it will accordingly be reported to the Senate next Monday just as it came from the House of Representatives. The report will be made by Senator Cullom as charman of the committee.

All the members of the committee except Senators Morgan and Clark; of Montana, were present at the meeting.

A big bird supper given by him to a large circle of favored friends that night exposed his ruse. This morning 400 crossed partridges were sold by Game Warden Wetherly, and \$1 ppr dozen was bid as fast as a dozen were offered, and there wasn't any more smolling or grimacing indulged in, because Colonei Bradshaw's scheme had lost its efficacy by said experience.
